

Fire Drill Directions:

1. Inform the seminary teachers there will be a fire drill on a certain date, at a certain time (time usually 6:00 am and 7:00 am).
2. Teachers should make plans to reduce the lesson time by ten minutes.
3. A Priesthood representative will close the magnetic doors to simulate a real fire drill and allow for practice of exiting the building correctly.
4. A Priesthood representative will ring the class bell (3 long blasts).
5. Students and teachers head to the west side parking lot (beyond middle curb to allow room for first-responders).
6. Teachers take a headcount (in a real alarm, report missing students to priesthood and/or first responders).
7. Students and teachers return to the classroom for their belongings.
